

BECOME A DEALER FOR ELECTRIC MOTORBIKES

Ecoro has been active in the market of electric scooters and electric motorbikes in the mid to upper power range since 2019. Our product selection is intentionally limited mainly to e-scooters in the speed range of 80–110 km/h and a power range of 5.5 to 11 kW. To round up our portfolio, we also offer some models of scooters in the 45 km/h segment.

Starting from our location in Zurich, we have expanded throughout German-speaking Switzerland in the last three years. We are currently growing strongly and are looking for further market areas for our expansion.

Our concept is based on an online shop, a central warehouse, and 4–5 partners, each of them covering a relatively large area in Switzerland.

Our partners offer the following services:

- Test drives
- Sales
- Service

We are looking for a long-term partner who would like to profit from the big growth of electric scooter market. We are searching for a trustworthy partner who sees the opportunities in electric mobility and enjoys the new technology. The commitment to get things moving and to do business honestly is important to us and should also be supported by the partner.

What we offer :

- The chance to participate in the revolution that is about to take place in the e-scooter business in the next few years with good quality electric scooters and a very good price-performance ratio.
- Exclusive partner of ecoro in a large trading area with a very high potential.
- Attractive purchase prices with a performance-based price scheme.
- Complete stock of spare parts for all scooters.
- Competent support and further education on the core topics of electromobility.
- Exhibition scooters can be taken into your stock and do not have to be paid for until they are sold.

Have we caught your interest?

We would be very happy to receive your reply: info@ecoro.ch or **044 520 16 49**
